TSCM | "Debugging" Specialists | Service Excellence since 1995

**From all of us at Advanced Corporate Solutions (ACS),  
we wish you a Prosperous New Year.**

We are pleased to inform you that added to our most modern TSCM (Technical Surveillance Countermeasures) equipment from this year, is the MESA. We are the only TSCM service provider in Africa with this most recent equipment. The protection of Intellectual Property has never been as important as it is now, as we enter 2021. When last did your organisation conduct a formal TSCM "Debugging" Assessment?

## MESA

### MOBILITY ENHANCED SPECTRUM ANALYSER

The MESA is a portable, handheld RF receiver that detects known, unknown, illegal, disruptive, or interfering transmissions. The MESA features unsurpassed mobility and ground breaking features, not found in any other spectrum analyser. First in its class, the MESA is purpose built to locate unknown signals throughout a wide frequency range up to 6 GHz.

**DETECTS:** RF Wi-Fi, Bluetooth, Cell phones and Illicit transmissions (Eavesdropping "Bug" Detection).
